DONATION AND PLEDGE AMOUNT
☐ $20
☐ $50
☐ $100
☐ $1,000
☐ _____

All donors giving an amount totaling $10,000 or more, have the option to create an endowed scholarship. In addition to naming the scholarship, the donor may choose to designate certain parameters of the scholarship such as the discipline of study, attending university, etc. Because the scholarship is endowed, the scholarship award is generated by the interest on the principal donation and will be given perpetually.

Once the building debt is retired, the rent payments received will be used to fund scholarships. In the first years, a portion of the money will be used to fund the endowed scholarships, which will be set up in the order in which they are received. The remaining scholarship money will be given to deserving engineering students.

ENDOWED SCHOLARSHIP: All information is optional; if no information is given, the Foundation will determine the parameters. Circle choice or write in blank if the choice is not listed.
