

CIVIL ENGINEER, P.E. – Houma, LA

We are searching for a licensed civil engineer with 5 or more years of experience in the engineering field to enhance our team of professionals and lead our growth in the Houma/Southeast Louisiana region.

Responsibilities:

- Take the lead in the refinement and implementation of the firm's strategy and business growth plan for the Houma/Southeast Louisiana region.
- Mentor and empower team members.
- Strengthen existing client base and service offerings in the public works, land development, and industrial markets.
- Develop, execute, and manage complex civil engineering projects.
- Serve as a technical design expert.

Requirements:

- Minimum + **5 years** Louisiana-licensed professional engineer (P.E.) experience with focus in public works, land development, industrial projects.
- Project management experience, including the development of project proposals, scopes, budgets and the successful execution and tracking of both small and large engineering projects.
- Proven leadership skills.
- Excellent oral and written communication skills. Candidate will need to communicate clearly with clients and TBS associates.
- Experience monitoring and controlling costs within own work. Candidate must have experience solving moderately complex problems and will be expected to apply new perspectives on existing solutions.
- Proven skills in design, site development, planning, and problem solving.
- Ability to effectively lead design teams and manage other associates.

Technical Experiences:

- Working knowledge of AutoCAD and Civil 3D
- Proficient in Microsoft Office Suite

This is a great opportunity for a motivated design engineer professional interested in their own and their team's growth potential while working in an energetic work environment.
