## **Civil Engineer Position – Job Advertisement**

### **Civil Engineer, P.E. or E.I.:**

Our group, Southern Lifestyle Development, Louisiana's largest single family and mixed use/smart growth residential developer has an opening for a civil engineer in our Lafayette, La office. Southern Lifestyle Development, the development team behind River Ranch in Lafayette, specializes in developing residential, commercial and retail mixed use large scale communities across the state. This is a long term opportunity to work on the engineering of major projects in the state and also to learn the development business as our engineers are involved in the entire development process. The position entails designing and managing infrastructure design and construction projects including roadway design, sanitary sewer, drainage and utility design. Roadway or neighborhood design experience is a plus but not required.

### **Qualifications:**

P.E. or E.I. with at least 3 years experience

Strong working knowledge of AutoCAD Civil 3D

Good work ethic and time management skills

### **Salary/Benefits:**

Very competitive salary and bonus structure that will be based on experience

Health insurance, paid vacation and sick leave, 401K match

Applications will be accepted through close of business on **Friday, February 24, 2017.**

Please submit all applications and information to Bonnie Anderson at [SLDEngineering1@gmail.com](mailto:SLDEngineering1@gmail.com) .

You will receive an email confirming receipt of your application. Once all applications have been received, a letter of final interview will be sent to all recipients that meet the aforementioned criteria.
